

## AIRTECH AKB SERIES

[Home](#) > [Airtech AKB Series](#)

**Airtech Kinetic Blower (AKB) Series** are dynamic blowers that transfer kinetic energy to the medium agent by a contactless rotating impeller. The gas is drawn in by a high-performance titanium turbo impeller. The minimized internal losses lead to extremely high efficiencies and silent compression at rotational speeds up to 12,500 RPM. The position of tangential inlet and outlet can be selected individually according to the needs of the application. The reliable IE4/NEMA super premium blower motors are also available with integrated plug and variable frequency drive.

### PRODUCTS FEATURES:

**Advanced Design** – The AKB features permanently greased hybrid ceramic ball bearings, a non-contacting titanium impeller, and a fan-cooled permanent magnet motor

**Environmentally Safe** – Oil-free compression allows for optimized efficiency, low energy consumption and low noise level – all in one small footprint.

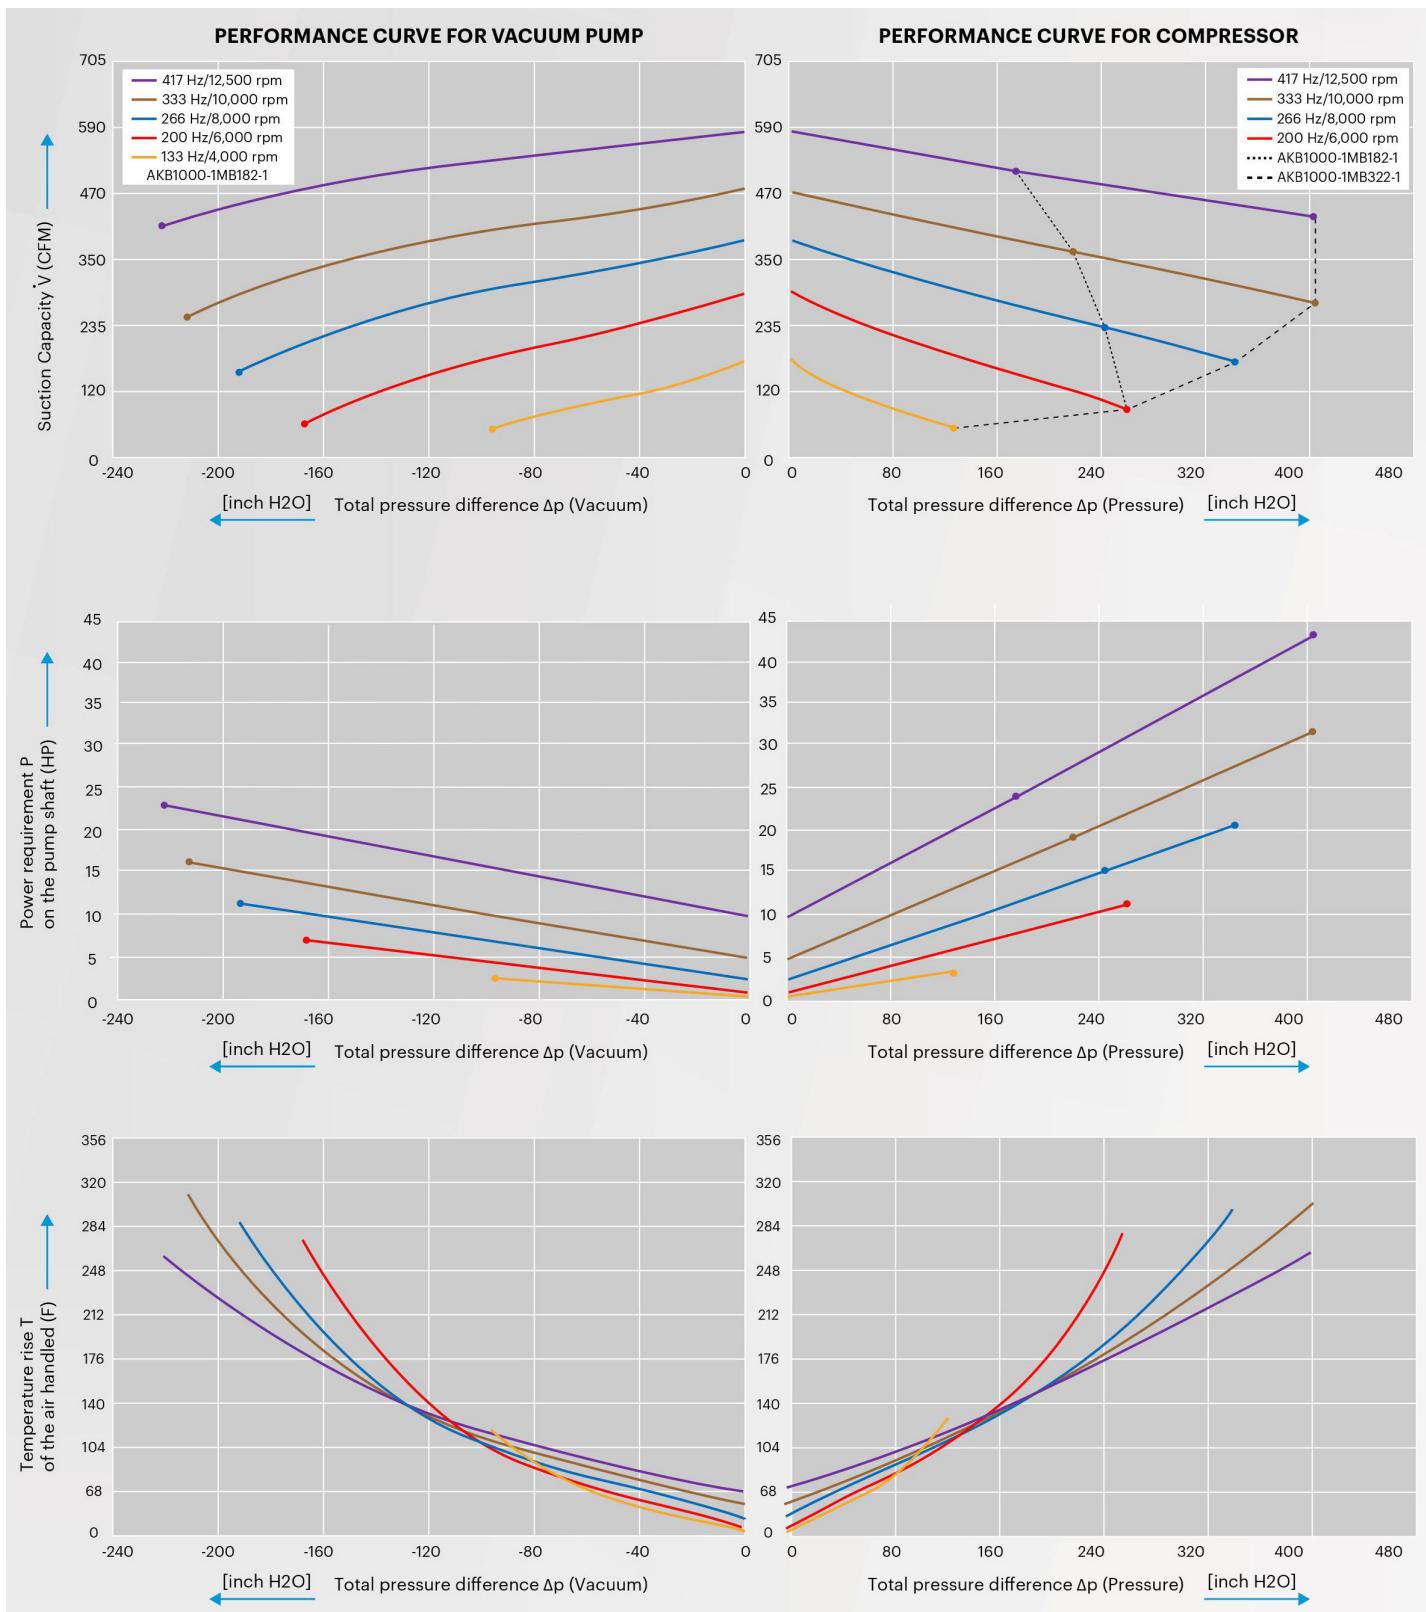

**User-Friendly** – The AKB features no contacting parts and operates oil-free – no maintenance needed.

**Speed Controlled** by external or integrated variable frequency drive.

**Forward Thinking** – With a neodymium magnet IE4/NEMA super-premium permanent magnet motor.

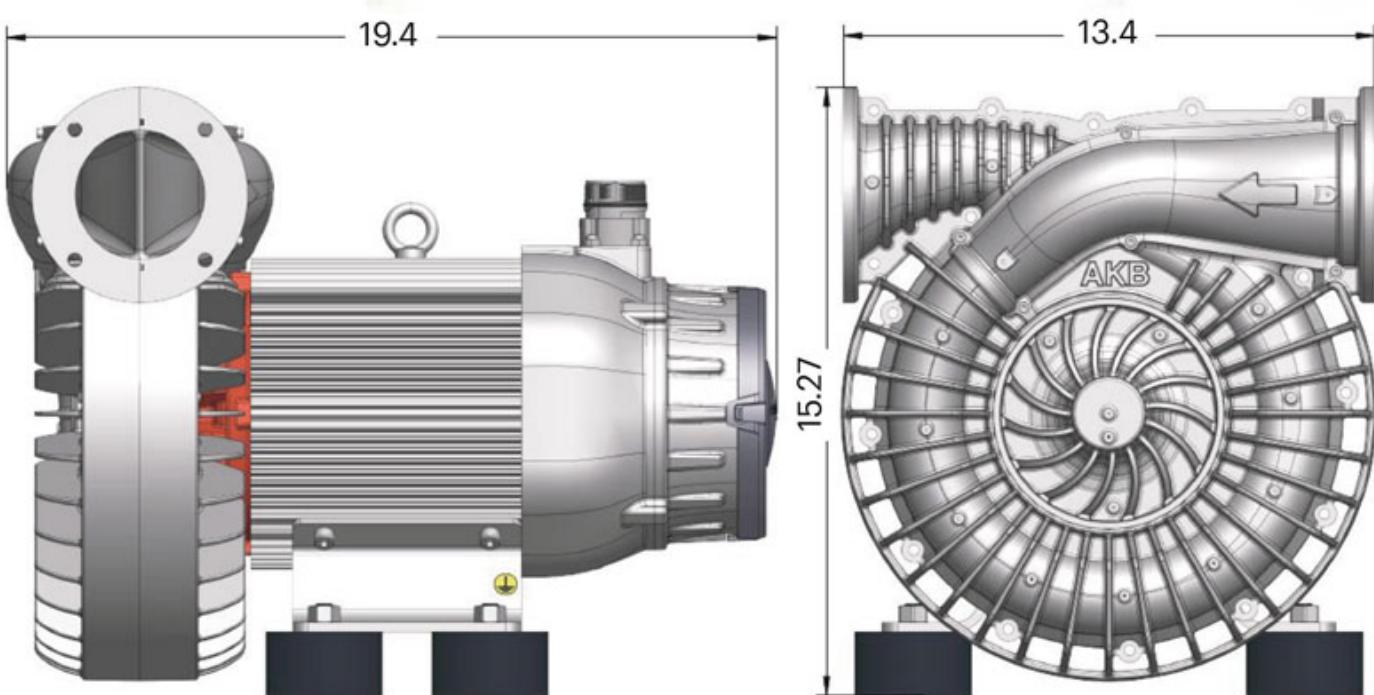

**Customized** for your specific needs and applications.

SPEAK TO AN EXPERT (/CONTACT-US/)

Curves are valid for continuous operation. Medium: air at 59° F measured at inlet port and 1012 hPa (mbar abs.) atmospheric backpressure. Tolerance ± 10%; ambient temperature: -77° to 104° F

## EXPERIENCE THE DIFFERENCE

**AKB Series** Kinetic blowers are smaller, lighter, and quieter compared to other gas moving technologies of similar performance. AKB1000

	AKB1000	Rotary Lobe Technology
Size	23"x15"x15"	52"x46"x38"
Weight	162 lbs	1065 lbs
Noise	75 dBA	90 dBA
Pulsation	No	Yes
Maintenance	None	Yes: Gears, V-belt, gearbox oil must be replaced on maintenance cycle

## HIGHLIGHTED INDUSTRIES

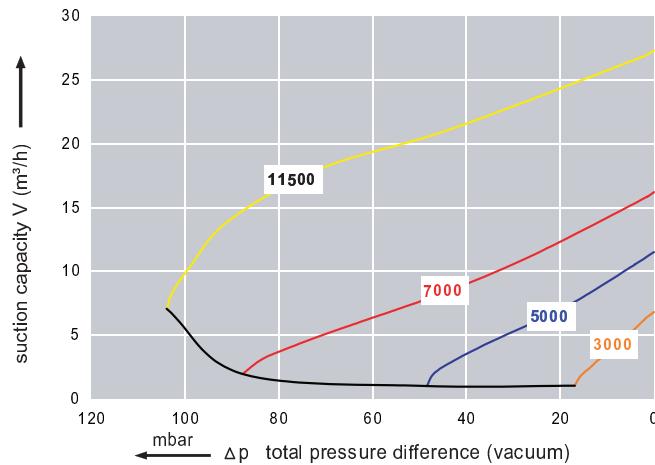

AKB Series Kinetic blowers are replacing many traditional types of positive displacement blowers and pumps in a wide range of different industries.

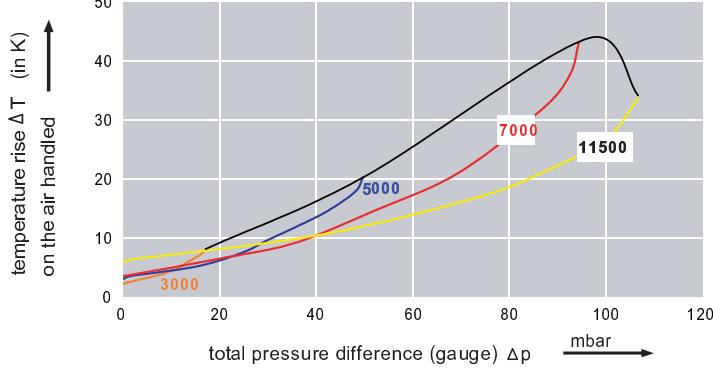

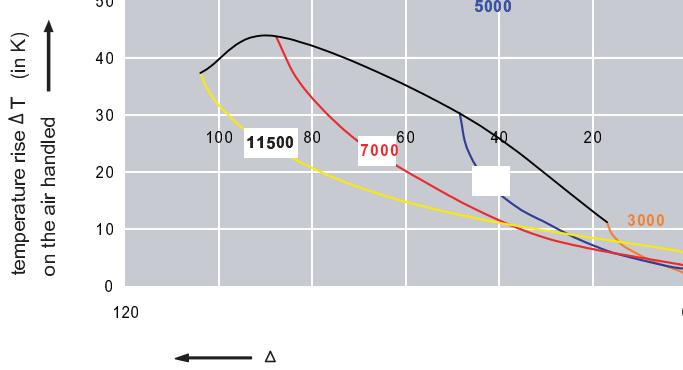

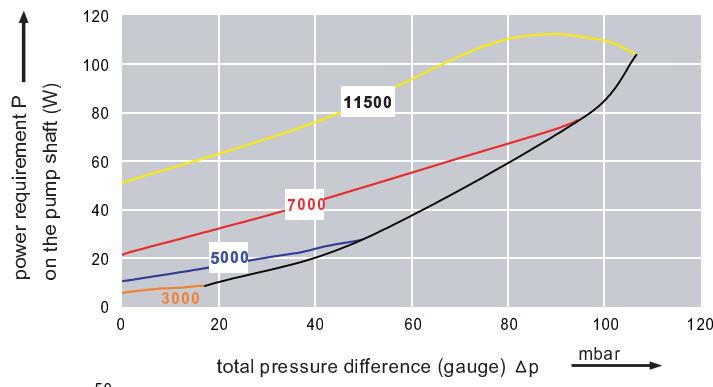

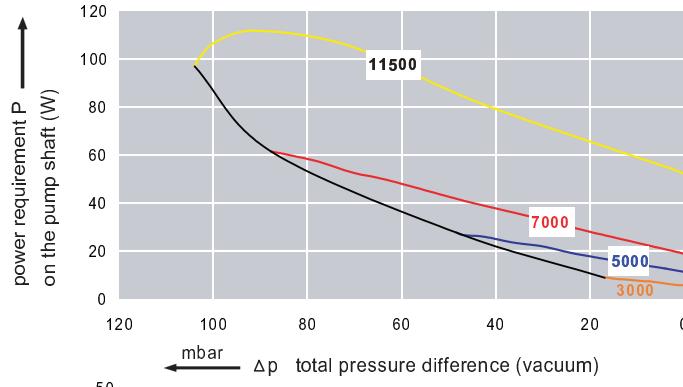

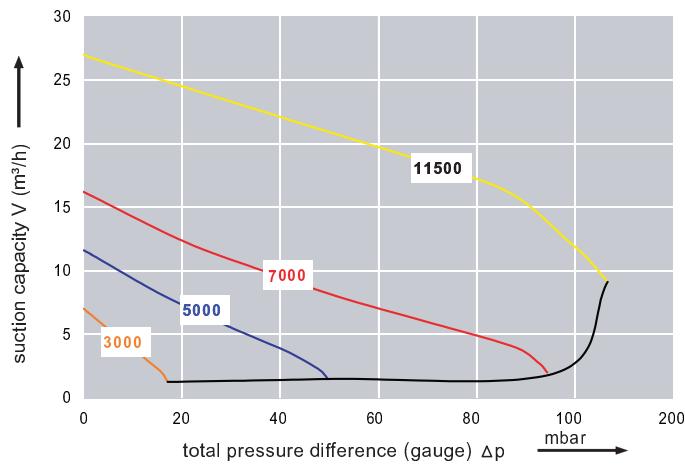

### Features:

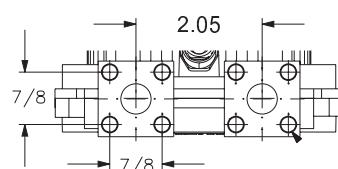

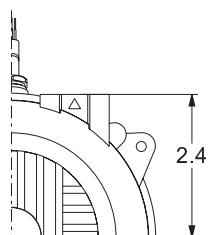

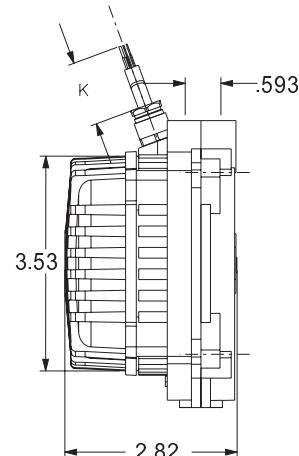

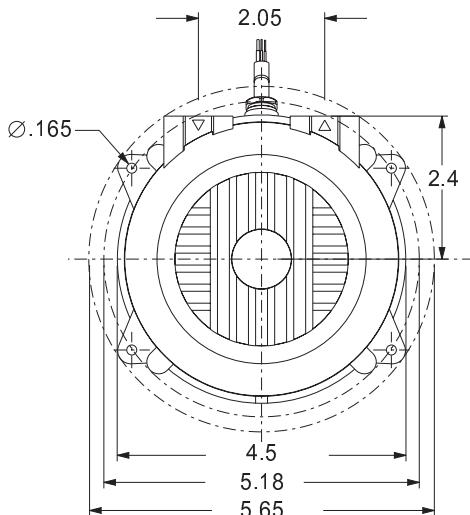

- Cooler running, outboard bearing provides maintenance-free operation
- Environmentally friendly oil-free technology
- Extremely quiet operation
- All motors are standard brushless DC motors, CE compliant
- Custom construction blowers are available
- Rugged die cast aluminum construction

All curves are rated at 14.7 psia and 68°F ambient conditions and are reported in SCFM referenced to 68°F and 14.696 psia sea level conditions. Curve values are nominal, actual performance may vary by up to 10% of the values indicated. For inlet temperatures above approximately 80°F or for handling gases other than air, please contact your Airtech sales representative for assistance.

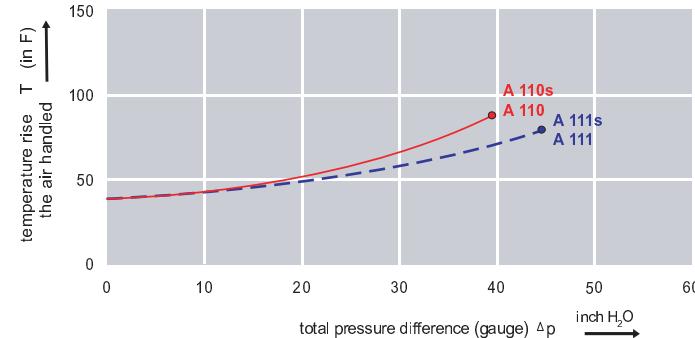

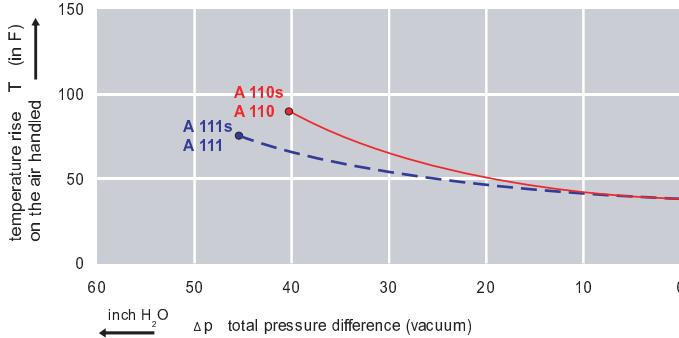

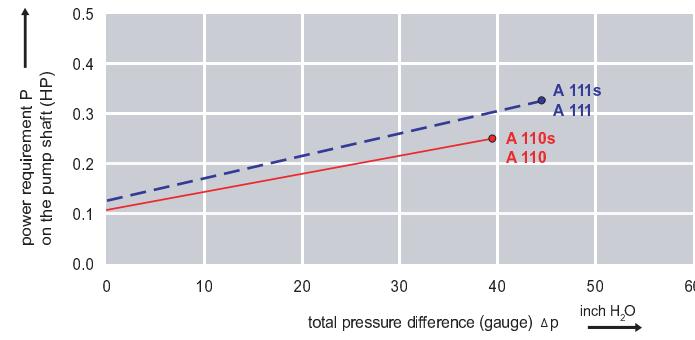

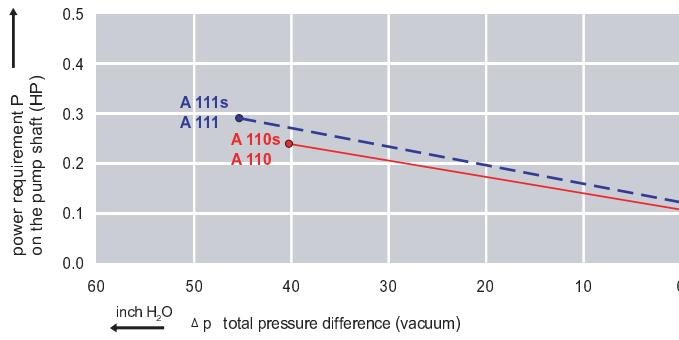

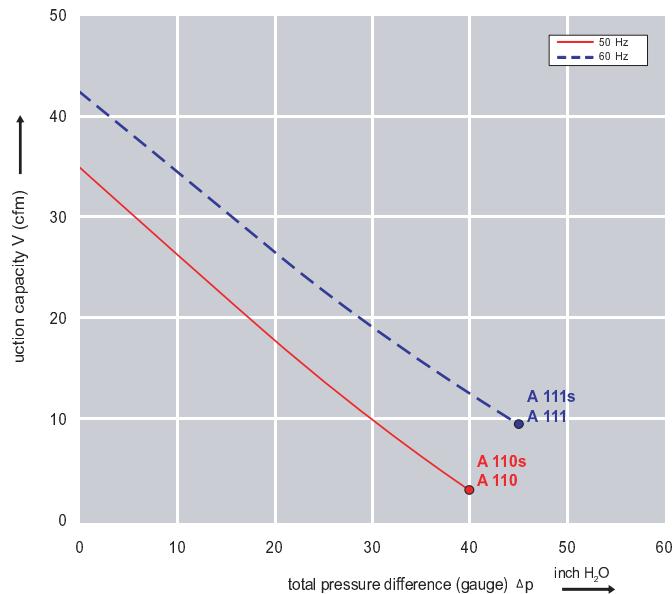

## Features:

- Cooler running, outboard bearing provides maintenance-free operation
- Environmentally friendly oil-free technology
- Extremely quiet operation
- All motors are standard TEFC with Class F insulation, UL recognized, CE Compliant *Explosion-Proof* motors available
- Custom construction blowers are available
- Rugged die cast aluminum construction

Suitable for 208 Volt Operation

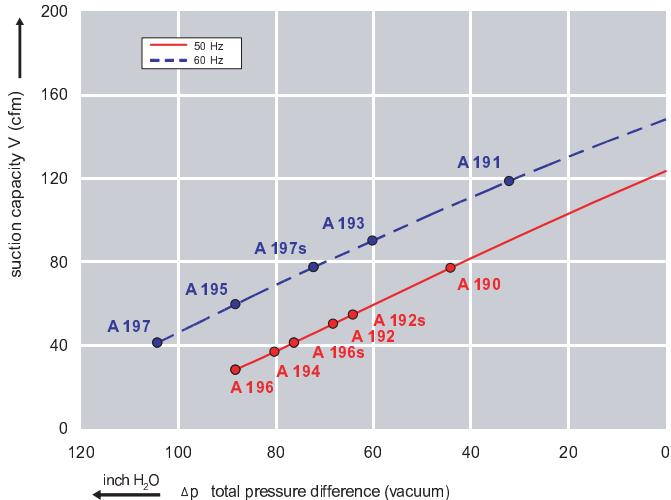

All curves are rated at 14.7 psia and 68°F ambient conditions and are reported in SCFM referenced to 68°F and 14.696 psia sea level conditions. Curve values are nominal, actual performance may vary by up to 10% of the values indicated. For inlet temperatures above approximately 80°F or for handling gases other than air, please contact your Airtech sales representative for assistance.

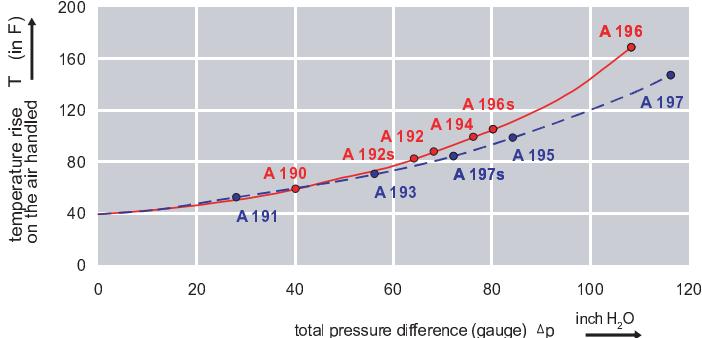

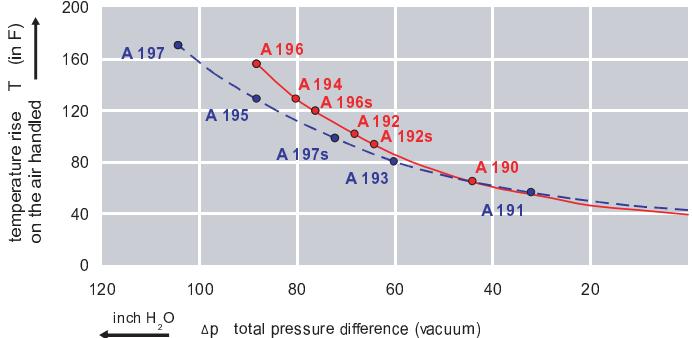

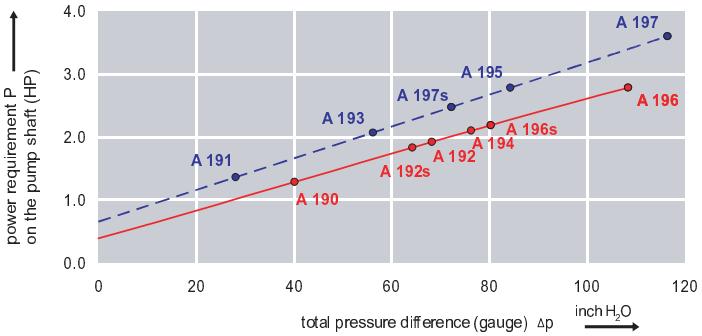

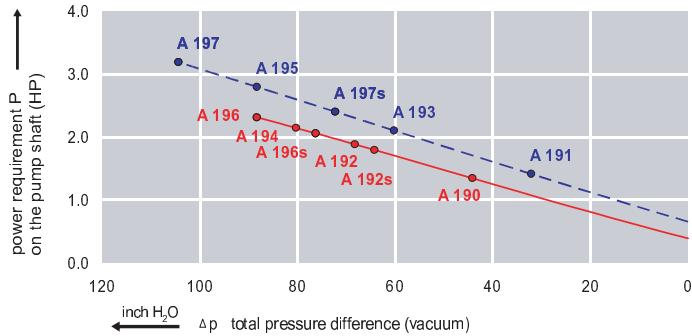

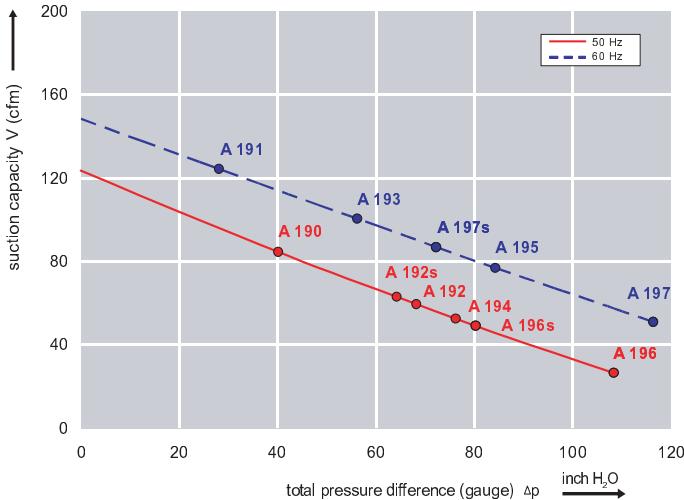

## Features:

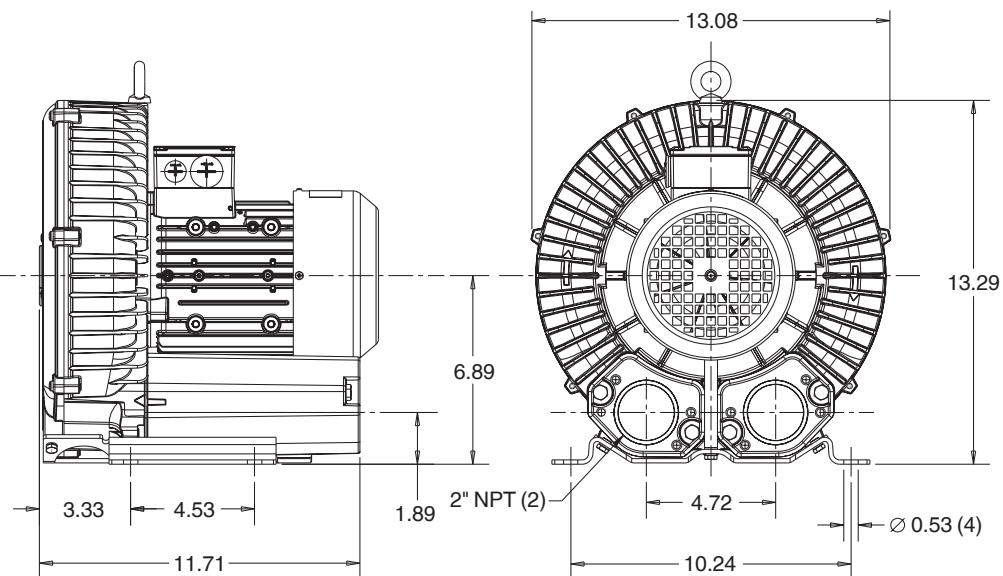

- Cooler running, outboard bearing provides maintenance-free operation
- Environmentally friendly oil-free technology
- Extremely quiet operation
- All motors are standard TEFC with Class F insulation, UL recognized, CE Compliant  
*Explosion-Proof motors available*
- Custom construction blowers are available
- Rugged die cast aluminum construction

Suitable for 208 Volt Operation

All curves are rated at 14.7 psia and 68°F ambient conditions and are reported in SCFM referenced to 68°F and 14.696 psia sea level conditions. Curve values are nominal, actual performance may vary by up to 10% of the values indicated. For inlet temperatures above approximately 80°F or for handling gases other than air, please contact your Airtech sales representative for assistance.

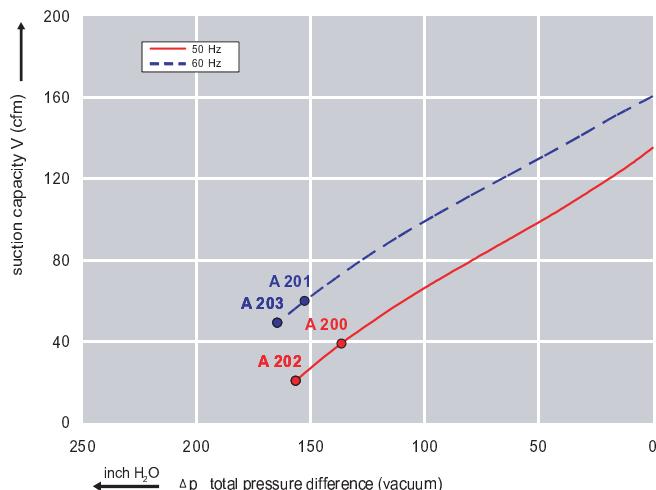

## Features:

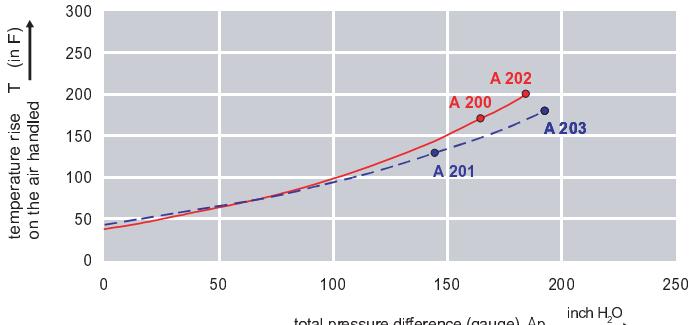

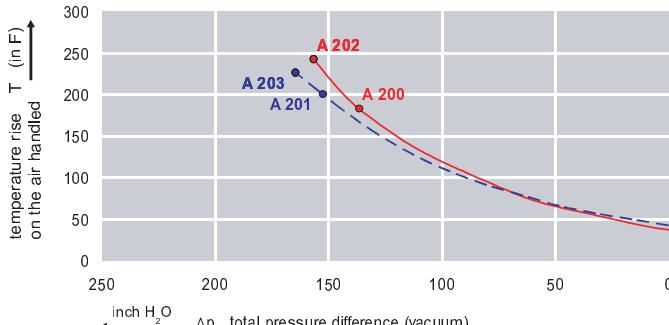

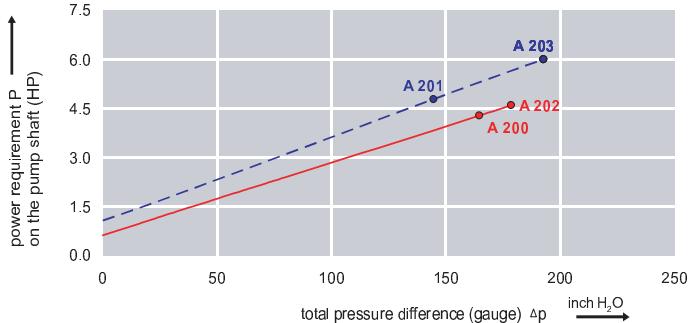

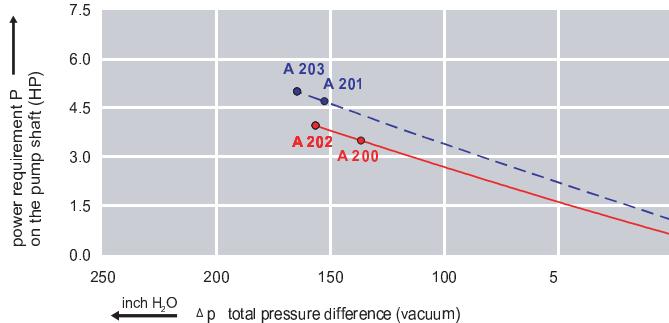

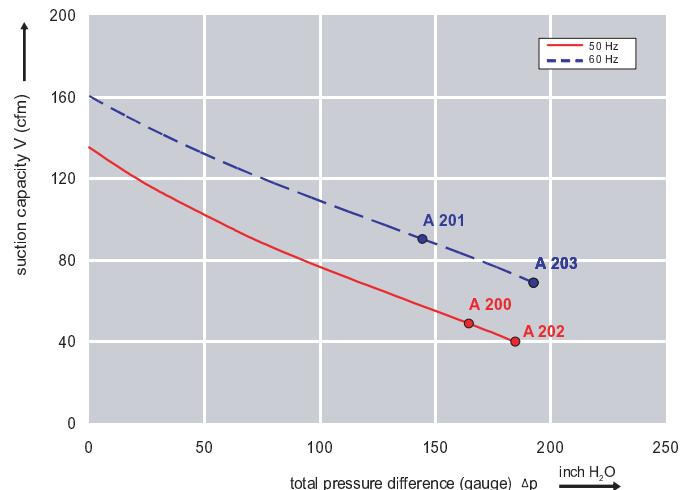

- Cooler running, outboard bearing provides maintenance-free operation
- Environmentally friendly oil-free technology
- Extremely quiet operation
- All motors are standard TEFC with Class F insulation, UL recognized, CE Compliant *Explosion-Proof motors available*
- Custom construction blowers are available
- Rugged die cast aluminum construction

D	3BA94207AT76	100	25.50	345D...415D		39.5D	-204	196	75

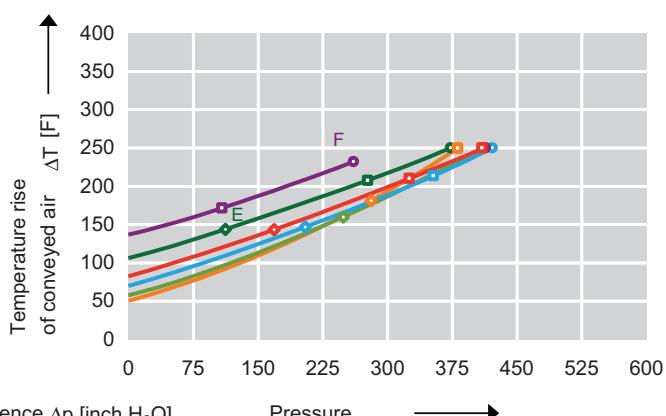

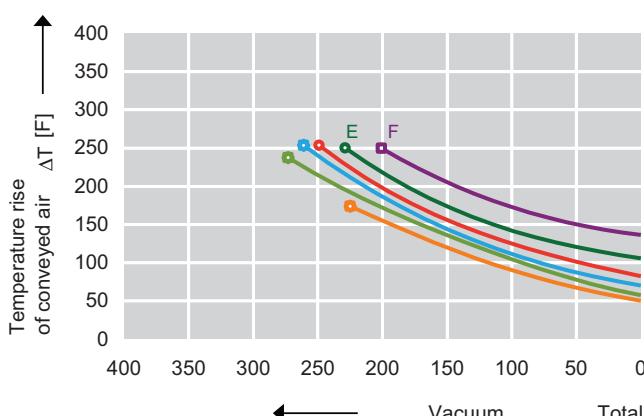

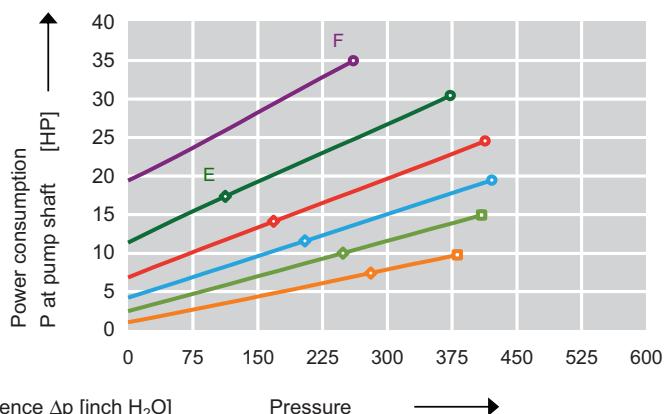

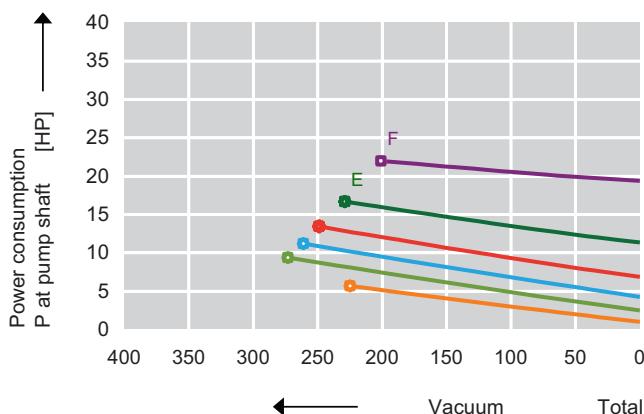

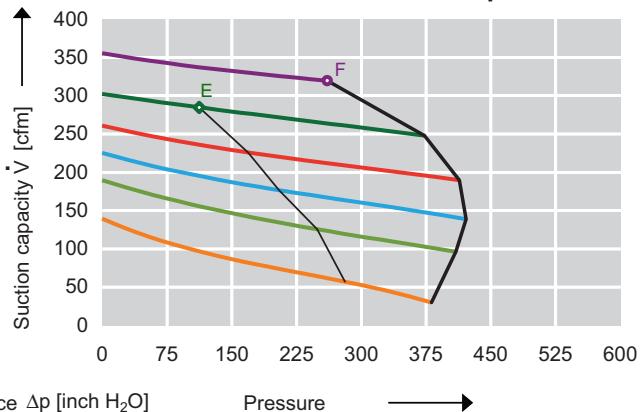

### Features:

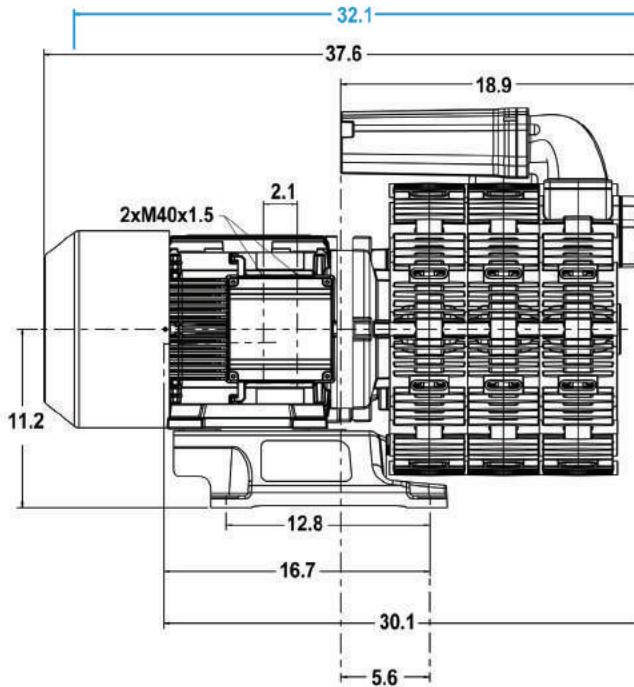

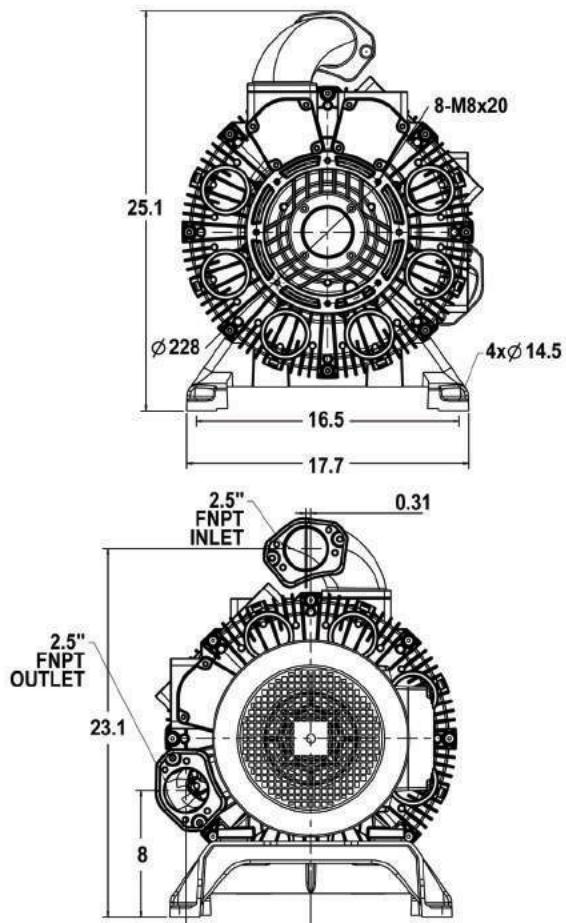

- Cooler running, outboard bearing provides maintenance-free operation
- Environmentally friendly oil-free technology
- Extremely quiet operation
- All motors are standard TEFC with Class F insulation, UL recognized, CE Compliant *Explosion-Proof motors available*
- Custom construction blowers are available
- Rugged die-cast aluminum construction
